

Mission:

To protect, promote & improve the health of all people in Florida through integrated state, county & community efforts.

**Rick Scott**

Governor

John H. Armstrong, MD, FACS

State Surgeon General & Secretary

Vision: To be the Healthiest State in the Nation**INTEROFFICE MEMORANDUM**

DATE: May 26, 2015
TO: County Health Department Directors/Administrators
FROM: Anna Marie Likos, MD, MPH 
Director, Division of Disease Control and Health Protection
SUBJECT: Immunization Assessments Ranking Report for 2014–2015

INFORMATION ONLY

Enclosed is the Immunization Section's annual report which combines the following previously published assessments:

- *Kindergarten and Seventh Grade Immunization Status Report 2014–2015*
- *Vaccine Accountability Report January 1, 2014–December 31, 2014 (Cumulative)*
- *Assessment of County Health Department Immunization Coverage Levels in Two-Year-Old Children (2015)*
- *Survey of Immunization Levels in Two-Year-Old Children (2014)*

All counties are ranked from highest to lowest percentage achieved for the individual assessment. The counties above the double underlines met the desired goal.

Please contact your area field staff representative for questions regarding or copies of, the previously published assessments included in this report. For further assistance please contact our survey and assessment consultant, Ms. Amy Wilson, at 850-245-4444 ext. 2395.

¹County Health Department (CHD)

²Percentage of kindergarten students fully immunized per Section 1003.22, Florida Statutes and Section 64D-3.046, Florida Administrative Code.

³Percentage of seventh grade students fully immunized per Section 1003.22, Florida Statutes and Section 64D-3.046, Florida Administrative Code.

⁴Percentage of specific *Vaccines For Children Program* vaccine not Wasted, Spoiled, Expired, or Unaccounted For (WSEUF).

⁵Percentage of two-year-old children whose parents rely on a Florida CHD as their child's immunization home, who completed the 4:3:1:3:3:1 (4 or more doses of any diphtheria and tetanus toxoids and pertussis vaccines (DTaP/DTP/DT); 3 or more doses of any poliovirus vaccine; 1 or more doses of measles, mumps, and rubella (MMR) vaccine; 3 or more doses of *Haemophilus influenzae* type b (Hib) vaccine; 3 or more doses of hepatitis B vaccine; and one or more doses of varicella vaccine (or disease history) immunization series.

⁶Percentage of randomly selected two-year-old children born in Florida, who by 24 months of age, completed the 4:3:1:3:3:1 immunization series.

⁷County percentages are weighted based on the number of births in the county.

⁸County-specific data not included due to the total number of two-year-old children with the CHD as their immunization home being ≤ 10.
